North Florida Green Chamber Announces Recipient of 2021 Water Quality & Resource Awards

JACKSONVILLE, Fla. (August 16, 2021) – Ecologel Solutions has been named a recipient of the 2021 Water Quality and Resource Awards in the Conservation and Water Reuse category by the North Florida Green Chamber of Commerce (NFGCC).

The Green Chamber, making it cool and convenient to go green, presented the annual awards in four categories in recognition of August as National Water Quality Month.

“Congratulations to Ecologel Solutions. Thanks to everyone who entered and our judges,” said Green Chamber Executive Director Christina Kelcourse, Esq, CFP, CRPC. “Our entries have a tremendous impact in providing access to safe drinking water and water quality. They have done remarkable work leveraging innovation and proficiency to preserve one of our most vital natural resources.”

The Green Chamber awards recognize examples of water quality improvement and conservation that best demonstrates significant, lasting, and measurable excellence in water quality improvement or in prevention of water quality degradation by Green Chamber members and other businesses in North Florida in four categories.

The Green Chamber is a regional networking organization for all sizes of businesses and community organizations including non-profits that emphasize green and sustainable business practices. The award was created in cooperation with St. Johns Riverkeepers, the Florida Green Building Coalition, Florida Green Building Coalition and the St. Johns River Water Management District.

The Green Chamber has ongoing networking and educational events and benefits including the Tuesdays@2 monthly virtual meetings, a Buyers’ Club, Sustainability Coaches, the Solar Collective, job fairs, newsletter as well as sponsorship opportunities, discounts, awards, and a mentoring program.
